

SECTION 3

Third Party Verification

The ideal approach in gaining third party validation is to provide the forms in this section to the applicant's current or previous employers or referees to gain confirmation of the applicant's skills against the required units of competency. This would be done during a conversation or interview with these people.

It may be beneficial to make contact with the employers/referees early in the recognition process to make appointments, particularly if you have to travel some distance to visit them. This may be done on the same day as a practical assessment in the workplace if appropriate.

It is recommended that verification be obtained from one or two referees who can confirm the applicant's industry skills in context over time.

Referee Testimonial

To whom it may concern,

Re: VARUN CHANDRA skills in/as PLUMBER
(insert applicant name) (insert industry/job title)

I certify that the above named person has:

worked at YOUR LOCAL PLUMBING GROUP P/L for a period 6 years.
of

They regularly undertook the following activities within the workplace since commencing employment with the organisation:

→ **Initial** those skills/ competencies (below) that the applicant has or can successfully perform in the workplace

SK	Carry out interactive workplace communication
SK	Read plans and calculate plumbing quantities
SK	Work effectively in the plumbing and services sector
SK	Carry out WHS requirements
SK	Handle and store plumbing materials
SK	Use plumbing hand and power tools
SK	Carry out levelling
SK	Cut and join sheet metal
SK	Mark out materials
SK	Weld using oxy-acetylene equipment
SK	Weld using manual metal arc welding equipment
SK	Carry out simple concreting and rendering
SK	Work safely on roofs
SK	Flash penetrations through roofs and walls
SK	Weld polyethylene and polypropylene pipes using fusion method
SK	Fabricate and install non-ferrous pressure piping
SK	Locate and clear blockages
SK	Install domestic treatment plants
