3. Inspection of the Collapsed Pergola

The old pergola structure that fell over was located and inspected. The following photos document the structural failure of the metal trusses and the surrounding corrugated iron.

Detailed view of the collapsed metal pergola truss leaning against the boundary fence, showing significant structural displacement.

5. Summary of Findings

The site at [REDACTED] has been thoroughly documented through photographic evidence. The primary structure has suffered total failure and is currently in the process of being dismantled.

Current Status: * Site clearing is active.

- Hazardous metal sheets and heavy timber are being relocated for safety.
- Documentation of the collapse is complete as per the photos provided above.
